38 Horse Power Shaft Drive

The Final Talk

POR the past twenty-two days we have been publishing in this and three other New York papers a series of talks in which we endeavored to present our 38 H.P. Shaft-Drive chassis, and, at the same time, bring out clearly some of its attractive points. There may be some readers who have become interested in these talks and would be pleased to have the whole series. We have reproduced these talks in pamphlet form and would be glad to send them to those who will advise us.
